

COPPER ROOF DRAINS

SIDE OUTLET ROOF DRAINS

HORIZONTAL DISCHARGE COPPER DRAINS TO ROUTE WATER Laterally IN SHALLOW ACCESS AREAS

Features:

- Versatile, economical, designed to accommodate drainage in spaces where normal vertical drainage is impeded by structural limitations.
- Available in 2", 3" and 4" sizes of copper 90° outlet.
- Marathon's horizontal discharge drains adapt to all new and re-roofing systems.
- Typical accessories available include:
 - clamping rings
 - PVC coating for heat weld or adhesive connect systems
 - optional metal drain guards
 - flat grate inserts for promenade applications.
