

LIMITED LIFETIME WARRANTY

The Tapco Group[™] ("TTG"), a Headwaters Company, doing business as Wellcraft, Inc., warrants¹ to the original owner and to the party to whom the original owner transfers ownership as permitted in this document (a "permitted transferee") that its Wellcraft egress window wells (collectively referred to in the remainder of this document as, the "product" or, the "products") will be free from manufacturing defects when subject to normal use. There is no set term of years limiting the duration of this warranty although it is subject to all of the limitations, terms and conditions that follow. While there is no set duration on the term of this warranty, the owner should be aware that many things may affect the durability of the products including things that TTG cannot control such as, for example, the weather, the extent of exposure to direct sunlight, and whether proper installation techniques and materials are used. This warranty is intended to provide the owner with a level of comfort that TTG properly manufactured the products such that they will perform as specified. This warranty is not however, intended to provide an absolute assurance that the products will last forever.

Subject to the provisions that follow, provided that the warranty claimant is able to establish the date of purchase, the original cost of the defective products, and the fact that the claimant is either the original owner or a permitted transferee to the reasonable satisfaction of TTG, should any manufacturing defect occur during the lifetime of the original owner or for such other time as may be provided to a permitted transferee under the terms of this warranty, TTG will at its sole option either: a) provide replacement product at a cost pro-rated pursuant to the specification appearing in the table below; or, b) refund the amount paid by the original owner for the defective product. No product replacement under this warranty will alter the pro-ration specification below which shall run from the date of the original purchase of the Wellcraft product. Any replaced product shall be warranted in accord with the pro-ration specification that governed the original purchase. The lifetime coverage offered by this warranty automatically ends upon the sale of the property or death of the last of the original owners of the property at the time of purchase whichever first occurs.

For purposes of this warranty a "manufacturing defect" triggering warranty coverage is defined as any defect that would render the egress window well in question unserviceable or unfit for the ordinary purposes for which egress window wells of that kind are intended.

No benefits under this warranty whatsoever shall accrue to any owner and TTG shall incur no liability under this warranty unless and until the Products installed on the owner's structure have been paid for in full either by owner or by a predecessor in interest of owner.

No repair or replacement under this warranty will act to extend the warranty period. Any repaired or replaced product shall be warranted only for the duration of the warranty period that applied to the original product(s) before they were repaired or replaced.

Customer Responsibilities

The homeowner must inspect the egress window well in question before installation. If a manufacturing defect is discovered the homeowner must notify TTG in writing within 30 days of discovery of any manufacturing defect, and provide proof of the date of purchase, the date of installation, and proof of property ownership satisfactory to TTG. Failure to provide such notice shall void the warranty as to the defect in question.

If a defect is discovered or occurs after the product(s) is installed which could not have reasonably been discovered prior to installation, the homeowner must notify TTG in writing within 30 days of discovery and provide proof of the date of purchase, the date of installation, and proof of property ownership satisfactory to TTG. Failure to provide such notice shall void the warranty as to the defect in question.

All notifications should be sent to:

Wellcraft, Inc., Attn: Warranty Department, 29797 Beck Road, Wixom, MI 48393

TTG may require that the claimant allow an inspection to determine both the nature of the defect, if any. TTG will investigate any claim properly submitted and examine the material claimed to be defective and will notify the homeowner in writing of its determinations. If a defect covered by this warranty is confirmed, within a reasonable amount of time after the investigation is concluded, TTG will satisfy its obligations under this warranty, provided however that the cost of any shipment required to transmit or receive a product in connection with a warranty claim shall be paid by the homeowner within 30 days of being notified of the same.

¹This warranty is effective November 1, 2010 and supersedes all previously distributed versions of this warranty. It shall remain effective until such time as TTG publishes a subsequent superseding version at which time it shall have no further effect.

The homeowner shall not return an allegedly defective product to TTG, without TTG first agreeing to the return in writing. The homeowner may be required to submit (at the homeowner's expense) a sample of any defective material to TTG for laboratory analysis.
