4350™ HYBRID METAL ROOFING & SIDING CONSTRUCTION SEALANT

Geocel® Metal Roof & Siding Construction Sealant is a highly-engineered formula that uses our unique Scypolymer® technology to give instant, tenacious adhesion to metal roofing, glass/plexiglass, wood, brick, tile, vinyl, stone and concrete.

Apply it in the toughest conditions: wet or oily, cold or damp, Geocel Metal Roof & Siding delivers superstar performance that lasts, including outstanding UV resistance.

LASTING PERFORMANCE

- Permanently flexible
- Won't shrink or crack
- Creates a waterproof seal
- Barrier against insects, airborne dust and dirt, rust and moisture
- Mold/mildew resistant when cured

ENHANCED APPLICATION AND USABILITY

- Instant adhesion
- Won't slump or sag
- Low odor
- Excellent workability ... even in extreme cold or heat
- Tack free: 90 minutes or less
- Full cure: 72 hours

THE PERFECT WEATHERPROOF SEALANT FOR:

- Metal roofing/siding laps, seams, fasteners, joints and valleys
- Roof penetrations like pipes/vents/stacks, curbing, chimneys, cupolas pipe boots
- Skylights, windows, doors, dormers
- Gutters, downspouts, drip edges, eaves

THE ONE PRODUCT YOU NEED!

- ✓ Available in all major metal roof and siding manufacturer colors
- ✓ Use for both interior and exterior projects
