- Product weight: 9 lbs.

The Fiberglass Straight Handle Coal Shovel Scoop by Tie Down offers a shingle shovel with steel construction and a fiberglass handle. This roofing shovel is ideal for removing roofing debris and coal on a jobsite. Perfect for contractors working on residential or commercial job sites! The one-piece construction does not have seams or crevices where excess material can hide. This roofing shovel also withstands harsh weather and temperatures. Tie Down Safety maintains high standards and quality controls using quality raw materials and component parts.
