# 6.5 Beaded • Board & Batten

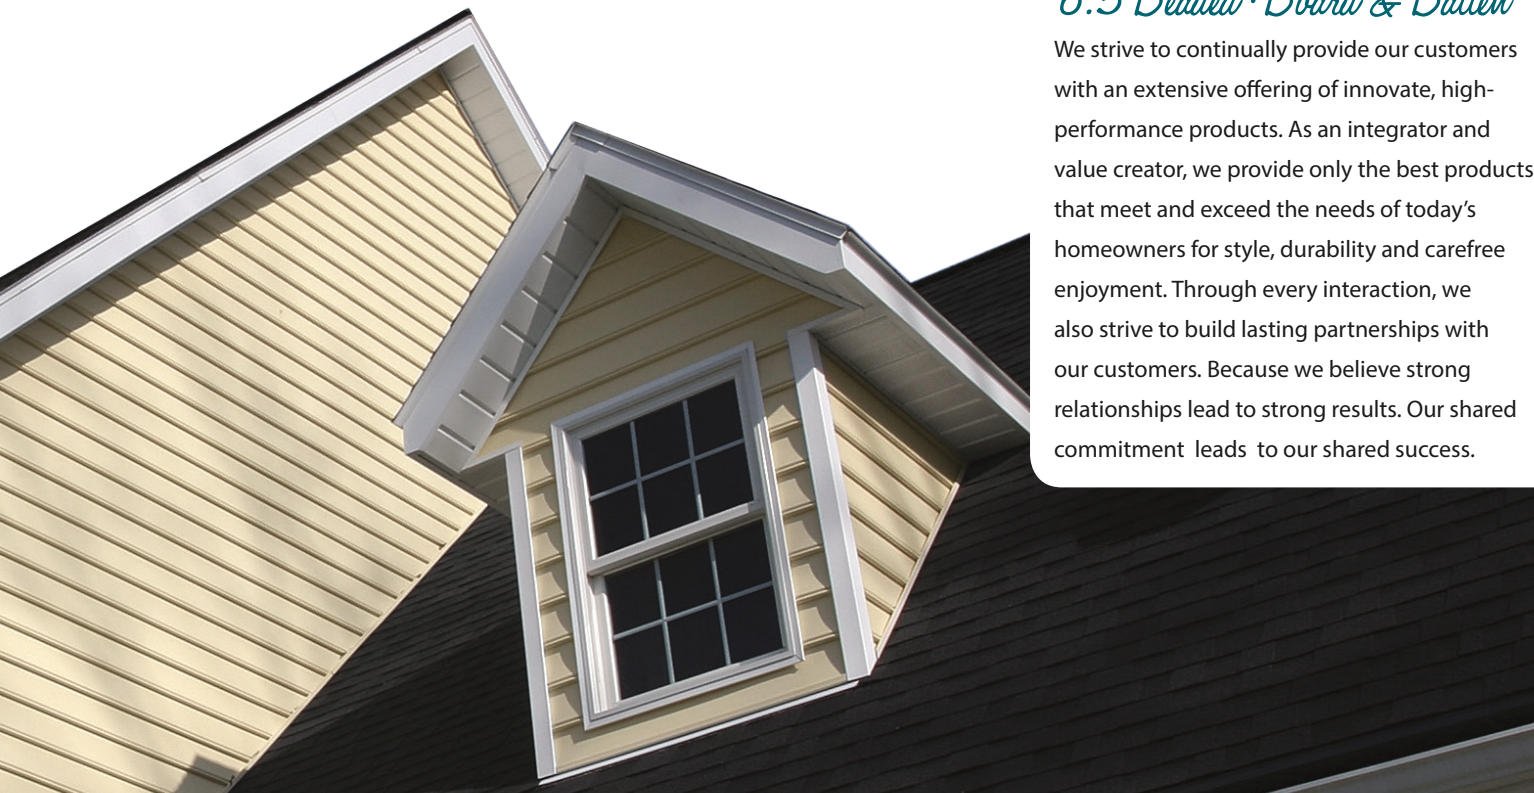

Contemporary. Rustic. Inspiration.

## Elevate your home through a style that is definitively you.

The Polaris Specialty Siding offers two unique profiles, each bringing a rustic look that adds charm to any home. Board & Batten vertical siding offers the architectural interest of deep cedar embossing in a classic vertical orientation, while Beaded siding offers a smooth finish that recreates the white-beaded board often found in the south. Both profiles are offered in distinctive color choices, so there's a beautiful style that matches every home.

Both profiles are simple to install with no worries about painting. It's never been so easy to bring classic American style to any home.
